MAKING SPACE 2010: INTERNATIONAL ARCHITECTURE AWARD

Background

Where we learn can be as important as what we learn. With a focus on meeting the physical, social, emotional as well as educational needs of every young person, from 0-18, Scotland is at the heart of an international drive to develop forward-thinking educational reform agendas. This strategy will result in not only a robust curriculum, but also schools and community spaces that encourage and support positive lifelong engagement with learning and citizenship.

This ambition is shared across the world, as countries seek to develop the values, principles and practice most appropriate to 21st century education. Making Space 2010 will bring together innovative and inspiring examples of spaces that support effective learning and which best serve their communities and bring them together.

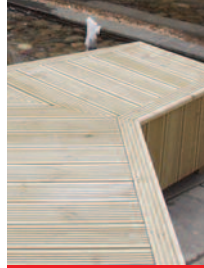

Making Space 2010 is an international award supported by the Scottish Government and OECD Centre for Effective Learning Environments. Submissions are invited from across the world for the most successful building or space (indoor or outdoor) for children and young people aged 0-18 (inclusive), completed between January 2005 and December 2010.

- Have you created a visionary building, place or space for children or young people?
Tell us what influenced you and why the space is successful for those who use it.
- Are you working with children and young people in an exceptionally well-designed and multi-functional building?
Tell us about who created it for you, and why it works for the children in your care and for the local community

How to enter

Entries are welcomed for **any** building or space that is for children and young people from schools to street furnishings, recreational or educational, rural or urban.

Entries should exemplify innovation and creativity in design as well as demonstrating a strong process of user participation and involvement. Entries are encouraged from anyone involved in the creation and use of a building or space, for example, architects, designers, structural engineers, urban designers, landscape designers, teachers, educators, users, children and young people, commercial developers, community groups, design consultancies.

Register now

Please register your intention to enter now using the enclosed form or visit www.childreninscotland.org.uk/makingspace

After registering your interest you will be sent full entry details. You will be asked to supply appropriate visuals and information about the project including an outline of:

- the process and the product
- the physical space
- participation and consultation
- sustainability
- educational aspects and impact
- effects on wellbeing

Visit www.childreninscotland.org.uk/makingspace for further information and to view examples of previous entries

Closing date: 8 August 2010

MAKING SPACE 2010: INTERNATIONAL CONFERENCE

Award winners will be announced and showcased at a major international conference on 7-8 October 2010 to be held in Edinburgh, with supporting events in Glasgow and Stirling.

The Making Space 2010 programme will culminate in two days of study visits to centres of excellence across Scotland and presentations from world-renowned architects, academics and practitioners.

It will encourage debate on the promotion of innovative design, allowing architects, planners and those working with young people in a variety of settings to share ideas and challenge conventional architectural approaches. Scotland has embarked on a major building programme and wants to share its vision, which is pivotal in achieving the goals of Scotland's broad curriculum. The conference will examine all aspects of the school learning environment, from buildings to furniture, and look at how these relate to visions of learning.

Register now to ensure your place and receive advance notification of early bird delegate and exhibitor rates

For more information, and to be added to the Making Space 2010 mailing list for regular updates, visit www.childreninscotland.org.uk/makingspace, or contact

Hannah Goodrum (hgoodrum@childreninscotland.org.uk)

Registration Form

Please use this form to register your entry for **Making Space 2010**. On receipt you will be allocated with a unique registration number which is required to submit your full entry. If you have any queries email us at hgoodrum@childreninscotland.org.uk. Further contact information can be found at the end of this form.

Please provide your name and contact details (please note this will be used for all future correspondence):

Name: _____

Organisation: _____

Full postal address: _____

Telephone: _____

Fax: _____

Email: _____

Please give a brief description of the building/space you wish to enter:

NB. Full entries must be received no later than **8 August 2010**.

Name: _____

Signature: _____ **Date:** _____

Please send your completed form to:

**Hannah Goodrum, Children in Scotland, Princes House
5 Shandwick Place, EDINBURH, EH2 4RG, UK
